Property Management

Testing Guide & Demo Data

Odoo 18 Enterprise · Release 18.0.1.1.0

November 2026

1. Test instance

Item	Value
URL	`http://localhost:8018`
Database	`property18` (installed with demo data)
Login / password	`admin / admin`
Master password	`admin` (database manager)
Start / stop	`~/odoo18ee/odoo18ctl.sh start|stop|restart|status`

> These are demo credentials. Change the admin password and `admin_passwd` before the instance is reachable by others.

A fresh test database with the same data: create a database with demo data and install **property_ee** (`deploy/deploy.sh -c CONF -d NEWDB --install`). All dates are relative to the install day, so “overdue”, “expiring soon” and “this month” are always meaningful.

2. Demo data

2.1 Properties

Property	Used for
Golden Villa, Diamond Crest, Royal Manor, Cloud Haven, Trek Rise, White Villa (+ child units)	Buildings with photos, rooms, utilities, insurance; purchased 3 years ago (KPIs)
Grimfield, Dawson Drive, Glohork Villa, Cleveland, New Plazza	Units leased in the tenancy scenarios below
Silver Palace	Free property, fully configured, ready for a new tenancy
Sunrise Towers (12 units)	Booking, merge/split
Trek Rise / White Villa	Purchase instalments / sale instalments

2.2 People

Name	Role	Email
Alice Wanjiru	Tenant, Grimfield (overdue rent, penalty)	alice.tenant@example.com
Brian Otieno	Tenant, Dawson Drive (expires soon, agent commission)	brian.tenant@example.com

Carol Mwangi	Tenant, Glohork Villa (draft, starts next month)	carol.tenant@example.com
David Kimani	Tenant, Cleveland (weekly rent, recurring maintenance; no email)	—
Eva Njeri	Former tenant, New Plazza (closed tenancy)	eva.tenant@example.com
Frank Mutiso	CRM rent lead for Royal Manor	frank.prospect@example.com
Kevin Mutua (Agent)	Commission agent	kevin.agent@example.com
Lucy Achieng (Landlord)	Owner of Royal Manor	lucy.landlord@example.com

2.3 Tenancies

Tenancy	State	What is in it
Grimfield - Alice Wanjiru	In Progress	1,200/month, deposit 2,400 received; 6 months paid, 1 invoiced unpaid, last and current month not invoiced; penalty 5 % after 5 days
Dawson Drive - Brian Otieno	In Progress	950/month, ends in 3 weeks, all invoiced and paid; 10 % agent commission invoiced
Glohork Villa - Carol Mwangi	New	Starts next month, deposit 2,200 not yet received
Cleveland - David Kimani	In Progress	300/week, started 3 weeks ago; recurring maintenance 500
New Plazza - Eva Njeri	Closed	Last year's tenancy, fully paid
Royal Manor - landlord lease	In Progress	Landlord Lucy, 5,000/month, 3 owner bills posted

2.4 Other records

- Maintenance: *Leaking kitchen tap* (repaired, invoiced to tenant), *Air conditioner service* (in progress), *Broken window in lobby* (new).
- Documents expiring: Fire insurance policy (15 days), Lift inspection report (40 days); safety certificates: Gas (10 days), Electrical (25 days).

3. Test scenarios

T1. Rent invoicing and payment

1. Property Management → Tenant Details → Tenancies; open **Grimfield - Alice Wanjiru**.
2. Open the **Rent Schedule** tab. Six months are paid, one is invoiced but unpaid (overdue), last month and the current month are not invoiced yet.
3. On the current month line click **Create Invoice**, then **Confirm** the invoice and **Pay** it.

> **Expected:** The line shows *Paid*; Total Rent stays 14,400.

T2. Late-payment penalty

1. Alice's tenancy has **Penalty 5 %** after **5 days** (Penalty tab).
2. On **last month's** line (not invoiced, more than 5 days late) click **Create Invoice**.

> **Expected:** The invoice amount is rent + 5 % (1,260.00 for a 1,200.00 line) and the line shows the Penalty Amount.

T3. Overdue rent reminders

1. Tenant Details → **Send Rent Reminders** (or select rent lines in a list and use *Actions*).
2. Leave the list empty and click **Send Reminders**.

> **Expected:** A notification reports the reminders queued; Settings → Technical → Emails shows a mail to alice.tenant@example.com. Tenants without email are reported as skipped.

T4. Deposit received and returned

1. On **Glohork Villa - Carol Mwangi** (draft) click **Start**, then **Deposit Receive** and **Confirm** the payment.
2. Click **Deposit Return**, confirm and pay the vendor bill.

> **Expected:** *Deposit Received?* then *Deposit Returned?* become ticked; the property moves to *On Lease*.

T5. Contract expiry and renewal

1. Reporting → Contract Expiry, range today to +1 month, **Print**.
2. Open **Dawson Drive - Brian Otieno** (expires in ~3 weeks; all rent lines are invoiced), click **Close**, then **Renew**.

> **Expected:** Brian's tenancy is listed in the report; the renew wizard proposes the new period.

T6. CRM rent lead to tenancy

1. CRM: open **2-bedroom flat at Royal Manor** (Frank Mutiso).
2. Click **Create Contract**, set an end date, confirm.

> **Expected:** A tenancy for Royal Manor is created; Frank becomes a tenant (contact + tenant record); the lead description is unchanged.

T7. Weekly rent

1. Open **Cleveland - David Kimani** (Rent Type 1 Weekly, 300 per week).

> **Expected:** The schedule has one line per week; the last part-week is charged at 300 / 7 per day. Recurring maintenance (500) is shown and added to rent invoices.

T8. Maintenance

1. Property Maintenance → Maintenance Requests.
2. **Leaking kitchen tap** is Repaired and invoiced to the tenant (renter's fault). Move **Broken window in lobby** to *Repaired*, set a cost and click **Create Invoice**.

> **Expected:** The tenant/manager receives the done e-mail once; on the property form, *Maintenance Cost* and *Net Income (after maintenance)* update.

T9. Agent commission

1. Commissions → Commission Invoice: **COM/00001** (Kevin Mutua, 10 % of Brian's rent = 1,140.00) is invoiced.
2. Reporting → Commission details report / Commission invoices report, wide date range, **Print**.

> **Expected:** Both PDFs list Brian's tenancy and the 1,140.00 commission.

T10. Landlord payouts

1. Landlord Details → Landlord Tenancy: **Royal Manor - landlord lease** (Lucy Achieng, 5,000/month).
2. Three monthly owner bills are posted; on the next line click **Create Invoice**. Try **Pay Deposit** twice.

> **Expected:** A vendor bill to Lucy is created; the second deposit click opens the same payment (no duplicate).

T11. Booking units

1. Property Booking → Sub Property: **Sunrise Towers** has 12 units (3 floors × 4).
2. Unit 1 is booked; click *Make Available* on it, then *Book* on another unit. Select two units of the same floor and use **Merge**.

> **Expected:** Only the clicked unit changes state; merged units get a combined BHK label; units appear in the Properties list.

T12. Purchase and sale instalments

1. Open **Trek Rise**: 24 monthly purchase instalments (1,800,000). Open **White Villa**: sale instalments from the payment term (2,500,000).
2. Create a vendor bill / customer invoice from an instalment line.

> **Expected:** The bill/invoice is created for the line amount; the company currency is unchanged.

T13. Reports and KPIs

1. Reporting: Income & Expenditure, Tenancy by Property/Tenant, Document and Safety Certificate expiry (Fire insurance policy in 15 days, Gas safety certificate in 10 days), Property per Location, GFA / Occupancy / Operational cost / Investment analysis, Financial Performance Analysis.
2. Open **Grimfield** and **Dawson Drive**: Occupancy Rate is between 0 and 100 %.

> **Expected:** Every report opens or prints without error and shows the demo records.

4. Automated tests

16 automated tests cover the flows above. Run them on a throw-away database:

```
deploy/deploy.sh -c CONF -d test_db --install --test
```
